North-Holland

ANALYTIC SUBJECT INDEX

Amorphous metals
– The influence of disorder on the superconductivity transition temperature of simple — III - Krasny and Kovalenko 162 (1990) 128
Amorphous semiconductors
– Theory of magnetic and dielectric susceptibilities of model — - Sahu et al. 162 (1990) 57
Amorphous solids
– Phonon thermal conductivity of — at moderately low temperatures II - Krasny et al. 162 (1990) 122
Anderson model
– Magnetic properties of the — with particle–hole attraction - Gangadhar Reddy and Ramakanth 162 (1990) 74
Auger generation of carriers
– N-type negative differential conductivity at magnetoconcentration effect, resulting from — in narrow-gap semiconductors - Akopyan et al. 162 (1990) 243

Berthierite (see $FeSb_2S_4$) 162 (1990) 5

$Cd_{0.2}Hg_{0.8}Te$ *films*
– N-type negative differential conductivity at magnetoconcentration effect, resulting from Auger generation of carriers in narrow-gap semiconductors - Akopyan et al. 162 (1990) 243
$Cd(NH_4)_2(SO_4)_2 \cdot 6H_2O$
– EPR of VO^{2+} in — and $Mg(NH_4)_2(SO_4)_2 \cdot 6H_2O$ single crystals - Misra and Sun 162 (1990) 331
CH_4–CD_4 *mixtures*
– The low temperature phase transitions in solid — I - Lostak et al. 162 (1990) 21
– The low temperature phase transitions in solid — II - Lostak et al. 162 (1990) 33
– Low temperature phase transitions in solid — III - Lostak et al. 162 (1990) 254
Chemical potential of liquid ^3He
– A self-consistent method of determining the effective mass of a helium atom in normal liquid ^3He - Tripathy and Mishra 162 (1990) 300
Co^{2+}
– Energy level spectra of — and Fe^{2+} in diluted magnetic semiconductors - Villeret et al. 162 (1990) 89
Coulomb interaction
– — and lattice theory of strongly correlated systems I - Sandalov and Filatjev 162 (1990) 139
– — and lattice theory of strongly correlated systems II - Sandalov and Filatjev 162 (1990) 161
– Coulomb fingerprints on the I–V curves of the normal tunnel junctions - Averin and Nazarov 162 (1990) 309
Counterflow
– — in superfluid ^3He–^4He mixtures I - Mudde and van Beelen 162 (1990) 197
Crystal / liquid phase changes
– Group theoretical statistical mechanics of the Evans effects - Evans 162 (1990) 293

Defect motion
– A further interpretation of Hooge's $1/f$ noise formula - Orlov and Yakimov 162 (1990) 13
Deuteron spin–lattice relaxation
– — in $(ND_4)_2SnCl_6$ below 60 K - Ingman et al. 162 (1990) 281
Dielectric response function
– On the second-order theory of the — and of the spin susceptibility of the electron gas - Gasser and Fischer 162 (1990) 43
Dielectric susceptibility
– Theory of magnetic and dielectric susceptibilities of model amorphous semiconductors - Sahu et al. 162 (1990) 57
Dispersion law
– On the low temperature anomaly of metal glass heat capacity I - Kovalenko and Krasny 162 (1990) 115
Doped III–V compounds
– Dynamical consequences of a modified Fröhlich interaction in doped bulk and superlattice semiconductors - Chamberlain and Babiker 162 (1990) 353
$Dy_3Al_5O_{12}$
– Phase diagram of — and magnetic linear birefringence - Kolmakova and Popov 162 (1990) 71
Dynamic scaling function
– Dynamic scaling function for an isotropic ferromagnet at $T \geqslant T_c$ - Kalashnikov and Tret'jakov 162 (1990) 265

Effective mass of ^{3}He-atom
– A self-consistent method of determining the effective mass of a helium atom in normal liquid ^{3}He - Tripathy and Mishra 162 (1990) 300
Electric discharge
– On a theory of thermal breakdown in two-dimensional dielectrics - Gladkov 162 (1990) 237
Electron–boson interactions
– Coulomb interaction and lattice theory of strongly correlated systems II - Sandalov and Filatjev 162 (1990) 161
Electron–electron interactions
– Coulomb interaction and lattice theory of strongly correlated systems II - Sandalov and Filatjev 162 (1990) 161
Electron gas
– On the second-order theory of the dielectric response function and of the spin susceptibility of the — - Gasser and Fischer 162 (1990) 43
Electron–phonon interaction
– The influence of disorder on the superconductivity transition temperature of simple amorphous metals III - Krasny and Kovalenko 162 (1990) 128
Energy level spectra
– — of Co^{2+} and Fe^{2+} in diluted magnetic semiconductors - Villeret et al. 162 (1990) 89
EPR
– — of VO^{2+} in $Cd(NH_4)_2(SO_4)_2 \cdot 6H_2O$ and $Mg(NH_4)_2 \cdot 6H_2O$ single crystals - Misra and Sun 162 (1990) 331
Er_3Si_5
– Crystallographic and magnetic structures of — - Auffret et al. 162 (1990) 271
Evans effects
– Group theoretical statistical mechanics of the — - Evans 162 (1990) 293

Excitation of surface and body modes
– — in single crystal nickel thin films - Ahmad and Kareem 162 (1990) 363

1/f noise
– A further interpretation of Hooge's — formula - Orlov and Yakimov 162 (1990) 13
– The relation between — and number of electrons - Hooge 162 (1990) 344
Ferromagnetic Ni films
– The angular dependence of the main spin-wave resonance linewidth in ferromagnetic nickel films - Hussain 162 (1990) 321
$FeSb_2S_4$
– Magnetic properties and spiral magnetic structure of berthierite — - Wintenberger and André 162 (1990) 5
Fluctuations 1/f noise
– The relation between $1/f$ noise and number of electrons - Hooge 162 (1990) 344
Free carriers
– The influence of compensation on the temperature dependence of — concentration in semiconductors - Anagnostopoulos 162 (1990) 133
Free volume model
– On electromagnetic radiation scattering in liquid glassy matrices - Gladkov 162 (1990) 181
Fröhlich interaction
– Dynamical consequences of a modified — in doped bulk and superlattice semiconductors - Chamberlain and Babiker 162 (1990) 353

General relativity
– Superfluid ^{3}He-B and gravity - Volovik 162 (1990) 222
$Ge_{20}Se_{80}$
– X-ray spectroscopic studies in glassy semiconducting — and $Ge_{20}Se_{80-x}In_x$ alloys - Kumar et al. 162 (1990) 177
$Ge_{20}Se_{80-x}In_x$ alloys
– X-ray spectroscopic studies in glassy semiconducting $Ge_{20}Se_{80}$ and — - Kumar et al. 162 (1990) 177
Glassy semiconductors
– X-ray spectroscopic studies in glassy semiconducting $Ge_{20}Se_{80}$ and $Ge_{20}Se_{80-x}In_x$ alloys - Kumar et al. 162 (1990) 177
Gravity
– Superfluid ^{3}He-B and — - Volovik 162 (1990) 222
Group theoretical statistical mechanics
– — of the Evans effects - Evans 162 (1990) 293

Hooge's 1/f noise formula
– A further interpretation of Hooge's $1/f$ noise formula - Orlov and Yakimov 162 (1990) 13
Hydrides
– Magnetic properties and thermal expansion of $R_2Fe_{14}BH_{3.4}$(R = Y, Gd) single crystals - Bartashevich and Andreev 162 (1990) 52
Hydrogen absorption
– Magnetic properties and thermal expansion of $R_2Fe_{14}BH_{3.4}$(R = Y, Gd) single crystals - Bartashevich and Andreev 162 (1990) 52

I–V curves
– Coulomb fingerprints on the — of the normal tunnel junctions - Averin and Nazarov 162 (1990) 309
Impurity levels
– The influence of compensation on the temperature dependence of free carriers concentration in semiconductors - Anagnostopoulos 162 (1990) 133
Induced staggered field
– Phase diagram of $Dy_3Al_5O_{12}$ and magnetic linear birefringence - Kolmakova and Popov 162 (1990) 71
Iron compounds (see *Rare earth*) 162 (1990) 83
Isotropic ferromagnet
– Dynamic scaling function for an — at $T \geqslant T_c$ - Kalashnikov and Tret'jakov 162 (1990) 265

Lattice theory
– Coulomb interaction and — of strongly correlated systems I - Sandalov and Filatjev 162 (1990) 139
– Coulomb interaction and — of strongly correlated systems II - Sandalov and Filatjev 162 (1990) 161
Librational tunneling of ND_4
– Deuteron spin–lattice relaxation in $(ND_4)_2SnCl_6$ below 60 K - Ingman et al. 162 (1990) 281
Ligand superhyperfine interaction
– EPR of VO^{2+} in $Cd(NH_4)_2(SO_4)_2 \cdot 6H_2O$ and $Mg(NH_4)_2 \cdot 6H_2O$ single crystals - Misra and Sun 162 (1990) 331
Light scattering cross-sections
– On electromagnetic radiation scattering in liquid glassy matrices - Gladkov 162 (1990) 181
Liquid glassy matrices
– On electromagnetic radiation scattering in — - Gladkov 162 (1990) 181
Liquid ^3He
– A self-consistent method of determining the effective mass of a helium atom in normal — - Tripathy and Mishra 162 (1990) 300
$Lu(Fe_xAl_{1-x})_2$
– X-ray diffraction and magnetic susceptibility studies of — compounds ($0.55 \leqslant x \leqslant 0.65$) - Broda et al. 162 (1990) 188

Magnetic coupling
– — in rare earth iron compounds of the type RFe_4B - Buschow et al. 162 (1990) 83
Magnetic linear birefringence
– Phase diagram of $Dy_3Al_5O_{12}$ and — - Kolmakova and Popov 162 (1990) 71
Magnetic properties (see *Anderson model*) 162 (1990) 74
Magnetic semiconductors
– Energy level spectra of Co^{2+} and Fe^{2+} in diluted — - Villeret et al. 162 (1990) 89
Magnetic susceptibility
– Theory of magnetic and dielectric susceptibilities of model amorphous semiconductors - Sahu et al. 162 (1990) 57
Magnetic susceptibility measurements
– X-ray diffraction and magnetic susceptibility studies of $Lu(Fe_xAl_{1-x})_2$ compounds ($0.55 \leqslant x \leqslant 0.65$) - Broda et al. 162 (1990) 188

Mean field equations
– Coulomb interaction and lattice theory of strongly correlated systems I - Sandalov and Filatjev 162 (1990) 139
Metal glass heat capacity
– On the low temperature anomaly of — I - Kovalenko and Krasny 162 (1990) 115
$Mg(NH_4)_2(SO_4)_2 \cdot 6H_2O$
– EPR of VO^{2+} in $Cd(NH_4)_2(SO_4)_2 \cdot 6H_2O$ and — single crystals - Misra and Sun 162 (1990) 331
Mixed valent systems
– Magnetic properties of the Anderson model with particle–hole attraction - Gangadhar Reddy and Ramakanth 162 (1990) 74
Mobility model
– The relation between $1/f$ noise and number of electrons - Hooge 162 (1990) 344

N-type conductivity
– N-type negative differential conductivity at magnetoconcentration effect, resulting from Auger generation of carriers in narrow-gap semiconductors - Akopyan et al. 162 (1990) 243
Narrow-gap semiconductors
– N-type negative differential conductivity at magnetoconcentration effect, resulting from Auger generation of carriers in — - Akopyan et al. 162 (1990) 243
$(ND_4)_2SnCl_6$
– Deuteron spin–lattice relaxation in — below 60 K - Ingman et al. 162 (1990) 281
Neutron diffraction
– Magnetic properties and spiral magnetic structure of berthierite $FeSb_2S_4$ - Wintenberger and André 162 (1990) 5
Neutron diffraction experiment
– Crystallographic and magnetic structures of Er_3Si_5 - Auffret et al. 162 (1990) 271
Neutron optics
– Time dependent — II - Felber et al. 162 (1990) 191
Neutron resonance spin echo spectroscopy
– Demonstration of a "bootstrap" method for neutron resonance spin echo (NRSE) spectrometry - Keller et al. 162 (1990) 327
NH_4CdF_3
– —: structure of the low temperature phase - Le Bail et al. 162 (1990) 231
$(NH_4)_xRb_{1-x}H_2AsO_4$
– Isotope effects in the phase diagram of the — proton glass - DeLooze et al. 162 (1990) 1
NMR
– Low temperature phase transitions in solid CH_4–CD_4 mixtures III - Lostak et al. 162 (1990) 254

Phase transitions
– Isotope effects in the phase diagram of the $(NH_4)_xRb_{1-x}H_2AsO_4$ proton glass - DeLooze et al. 162 (1990) 1
– The low temperature — in solid CH_4–CD_4 mixtures II - Lostak et al. 162 (1990) 33
– Phase diagram of $Dy_3Al_5O_{12}$ and magnetic linear birefringence - Kolmakova and Popov 162 (1990) 71
– NH_4CdF_3: structure of the low temperature phase - Le Bail et al. 162 (1990) 231
Phonon thermal conductivity
– — of amorphous solids at moderately low temperatures II - Krasny et al. 162 (1990) 122

Photoemission
– Resonant — from tantalum in the vicinity of the 5p excitation threshold - Raaen 162 (1990) 172
Puszkarski model
– Excitation of surface and body modes in single crystal nickel thin films - Ahmad and Kareem 162 (1990) 363

Quantum interference
– Resonant photoemission from tantalum in the vicinity of the 5p excitation threshold - Raaen 162 (1990) 172
Quantum solids
– The low temperature phase transitions in solid CH_4–CD_4 mixtures I - Lostak et al. 162 (1990) 21
– The low temperature phase transitions in solid CH_4–CD_4 mixtures II - Lostak et al. 162 (1990) 33
– Low temperature phase transitions in solid CH_4–CD_4 mixtures III - Lostak et al. 162 (1990) 254
Quasi-phonon model
– Phonon thermal conductivity of amorphous solids at moderately low temperatures II - Krasny et al. 162 (1990) 122

Rare earth
– Magnetic coupling in — iron compounds of the type RFe_4B - Buschow et al. 162 (1990) 83
Resonance linewidth
– The angular dependence of the main spin-wave — in ferromagnetic nickel films - Hussain 162 (1990) 321

RFe_4B
– Magnetic coupling in rare earth iron compounds of the type — - Buschow et al. 162 (1990) 83
$R_2Fe_{14}BH_{3.4}$ (R = Y, Gd)
– Magnetic properties and thermal expansion of — single crystals - Bartashevich and Andreev 162 (1990) 52
Schrödinger equation
– Time dependent neutron optics II - Felber et al. 162 (1990) 191
Semiconductors
– The influence of compensation on the temperature dependence of free carriers concentration in — - Anagnostopoulos 162 (1990) 133
Semiconductors, bulk and superlattice
– Dynamical consequences of a modified Fröhlich interaction in doped bulk and superlattice semiconductors - Chamberlain and Babiker 162 (1990) 353
Single crystal Ni thin films
– Excitation of surface and body modes in single crystal nickel thin films - Ahmad and Kareem 162 (1990) 363
Single crystals (see *$R_2Fe_{14}BH_{3.4}$ (R = Y, Gd)*) 162 (1990) 52
Spin echo
– Demonstration of a "bootstrap" method for neutron resonance — (NRSE) spectrometry - Keller et al. 162 (1990) 327
Spin–lattice relaxation
– The low temperature phase transitions in solid CH_4–CD_4 mixtures I - Lostak et al. 162 (1990) 21

– The low temperature phase transitions in solid CH_4–CD_4 mixtures II - Lostak et al. 162 (1990) 33

Spin-pair correlation function

– Dynamic scaling function for an isotropic ferromagnet at $T \geqslant T_c$ - Kalashnikov and Tret'jakov 162 (1990) 265

Spin response function

– On the second-order theory of the dielectric response function and of the spin susceptibility of the electron gas - Gasser and Fischer 162 (1990) 43

Spin-wave resonance

– The angular dependence of the main — linewidth in ferromagnetic nickel films - Hussain 162 (1990) 321

Spiral magnetic structure

– Magnetic properties and — of berthierite $FeSb_2S_4$ - Wintenberger and André 162 (1990) 5

Strongly correlated systems

– Coulomb interaction and lattice theory of — I - Sandalov and Filatjev 162 (1990) 139

– Coulomb interaction and lattice theory of — II - Sandalov and Filatjev 162 (1990) 161

Structure of rare earth silicides

– Crystallographic and magnetic structures of Er_3Si_5 - Auffret et al. 162 (1990) 271

Super-Coster–Kronig decay

– Resonant photoemission from tantalum in the vicinity of the 5p excitation threshold - Raaen 162 (1990) 172

Superconductivity transition

– The influence of disorder on the — temperature of simple amorphous metals III - Krasny and Kovalenko 162 (1990) 128

Superfluid ^{3}He-B

– —and gravity - Volovik 162 (1990) 222

Superfluid ^{3}He–^{4}He mixtures

– Counterflow in — I - Mudde and van Beelen 162 (1990) 197

Ta

– Resonant photoemission from tantalum in the vicinity of the 5p excitation threshold - Raaen 162 (1990) 172

Ternary intermetallic compounds

– Magnetic properties and thermal expansion of $R_2Fe_{14}BH_{3.4}$(R = Y, Gd) single crystals - Bartashevich and Andreev 162 (1990) 52

Thermal breakdown

– On a theory of — in two-dimensional dielectrics - Gladkov 162 (1990) 237

II–III phase transition

– The low temperature phase transitions in solid CH_4–CD_4 mixtures I - Lostak et al. 162 (1990) 21

– Low temperature phase transitions in solid CH_4–CD_4 mixtures III - Lostak et al. 162 (1990) 254

^{3}He

– A self-consistent method of determining the effective mass of a helium atom in normal liquid — - Tripathy and Mishra 162 (1990) 300

^{3}He-B

– Superfluid — and gravity - Volovik 162 (1990) 222

^{3}He–^{4}He mixtures

– Counterflow in superfluid — I - Mudde and van Beelen 162 (1990) 197

Tunnel junctions
– Coulomb fingerprints on the $I-V$ curves of the normal — - Averin and Nazarov 162 (1990) 309
Two-dimensional dielectrics
– On a theory of thermal breakdown in — - Gladkov 162 (1990) 237

Valence-band photoelectron spectra
– Resonant photoemission from tantalum in the vicinity of the 5p excitation threshold - Raaen 162 (1990) 172
VO^{2+}
– EPR of — in $Cd(NH_4)_2(SO_4)_2 \cdot 6H_2O$ and $Mg(NH_4)_2 \cdot 6H_2O$ single crystals - Misra and Sun 162 (1990) 331

X-ray diffraction
– — and magnetic susceptibility studies of $Lu(Fe_xAl_{1-x})_2$ compounds ($0.55 \leqslant x \leqslant 0.65$) - Broda et al. 162 (1990) 188
– NH_4CdF_3: structure of the low temperature phase - Le Bail et al. 162 (1990) 231
X-ray spectroscopy
– X-ray spectroscopic studies in glassy semiconducting $Ge_{20}Se_{80}$ and $Ge_{20}Se_{80-x}In_x$ alloys - Kumar et al. 162 (1990) 177
